New danish adresse system street name districts and streetlink creation

An aerial photograph of a massive concrete dam, likely a hydroelectric power plant, situated in a deep, green mountain valley. The dam's curved concrete wall spans across the narrow opening of the valley. Behind the dam, a large, dark blue reservoir stretches towards the horizon, reflecting the clear sky. The surrounding mountains are densely forested with green trees. The foreground shows the rocky, uneven terrain of the mountain slopes. The overall scene is a blend of natural beauty and human-made engineering.

Data Processing

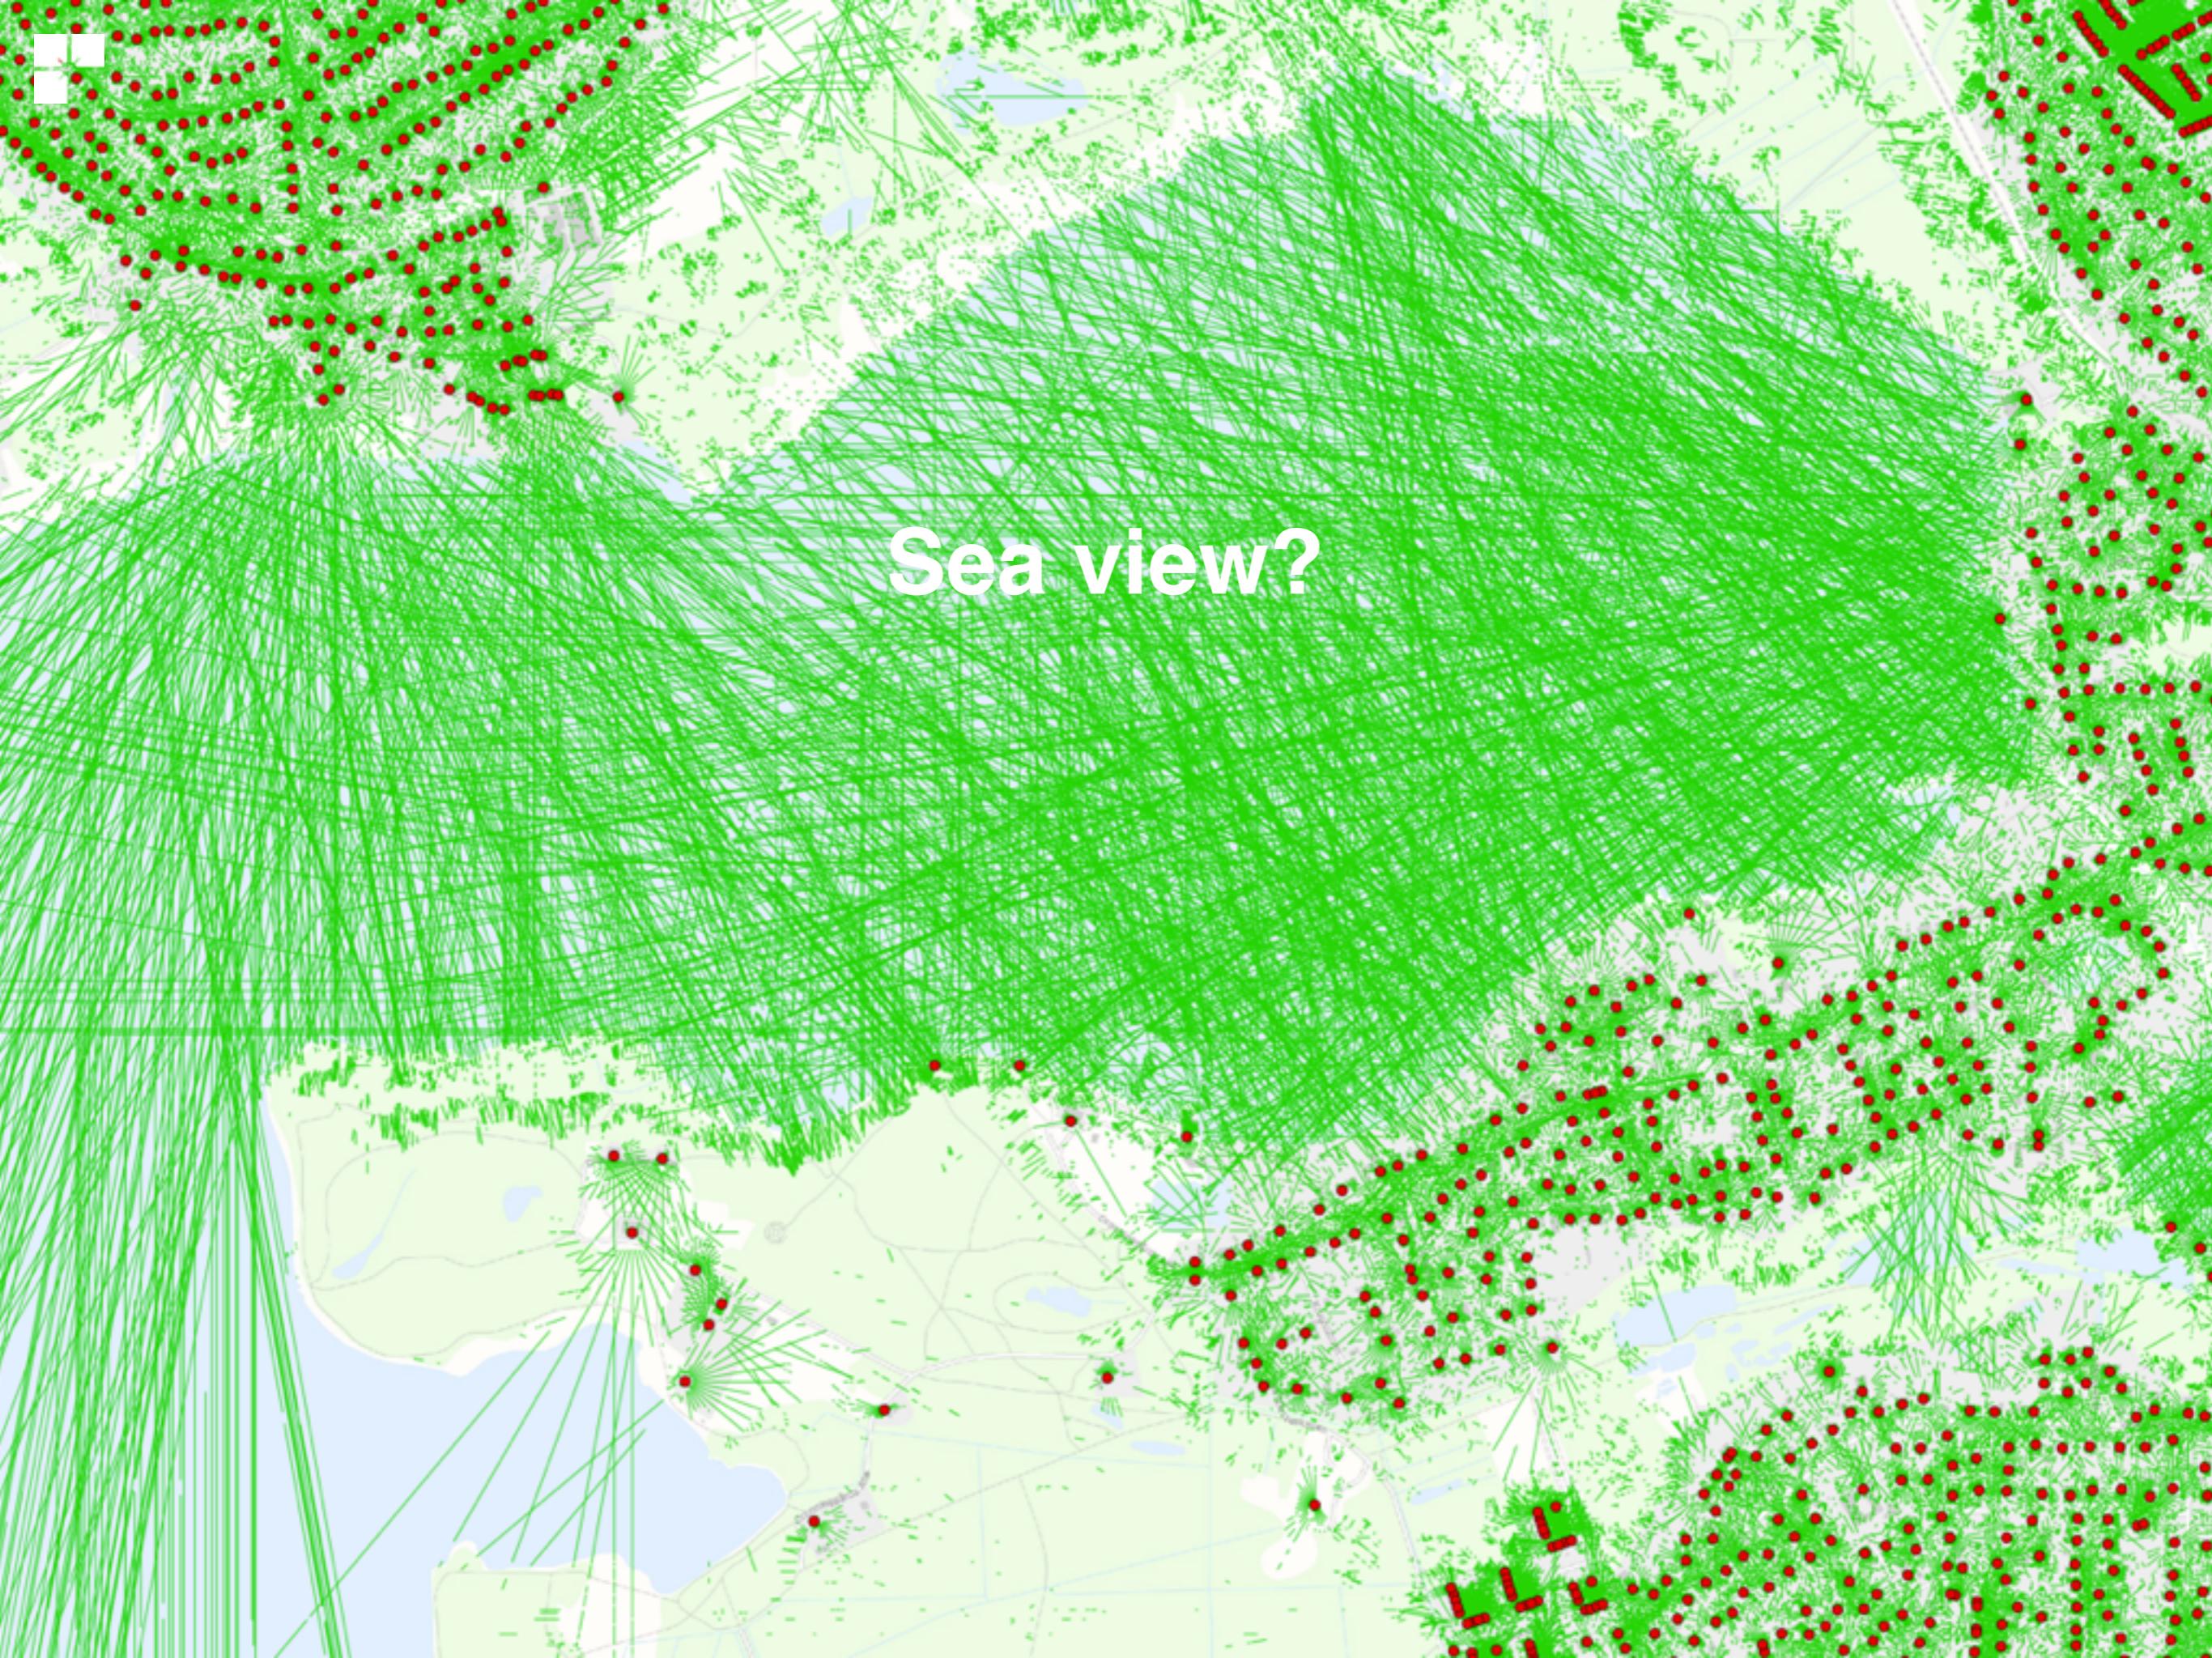

A black and white aerial photograph showing a rural landscape with numerous small, rectangular agricultural fields. A few roads and a few buildings are visible. The terrain appears slightly hilly.

The Danish elevation model has just about

An aerial photograph of a city showing a dense grid of buildings with reddish-brown roofs. The city is built on several interconnected waterways, creating a network of canals and islands. The buildings are mostly uniform in style, suggesting a planned urban environment. The overall scene is a top-down view of a large, developed urban area.
